

The cradle of future medical research  
**Research-driven medical school**

**"Mediscience Park" largest research park in Korea**

- ✓ World's best vaccine and treatment development platform
- ✓ Global platform for new drug research and development
- ✓ Biomedical convergence Research hub
- ✓ The only Korea innovation foundation(INNOPOLIS) in Seoul

**Infectious Disease Research Hub**

- Vaccine Innovation Center
- MRI Precision Imaging Reference Center
- Advanced Bio-lab for National Strategic Technology
- Biosafety ABL3 Center

**Industry-University-Research-Hospital collaboration Research Hub**

- Innovative platform for new drug research, including GMP facilities
- Preclinical research support
- Discovery of original technology and application for intellectual property and patents
- Medical technology commercialization

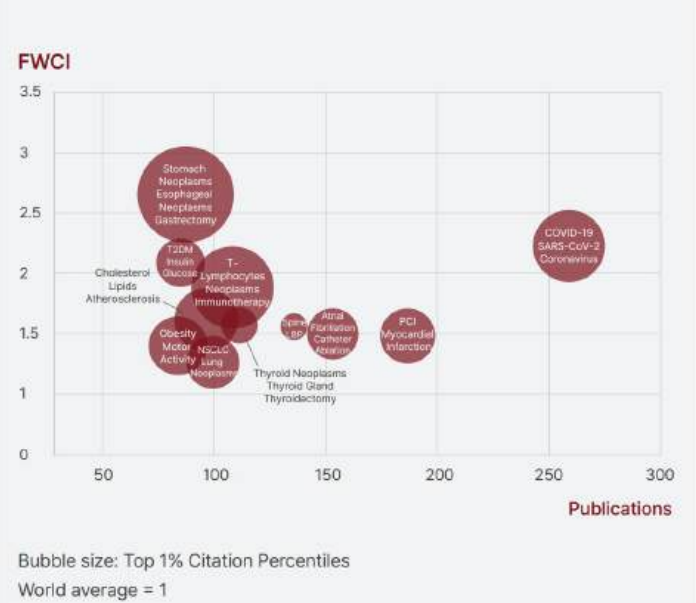

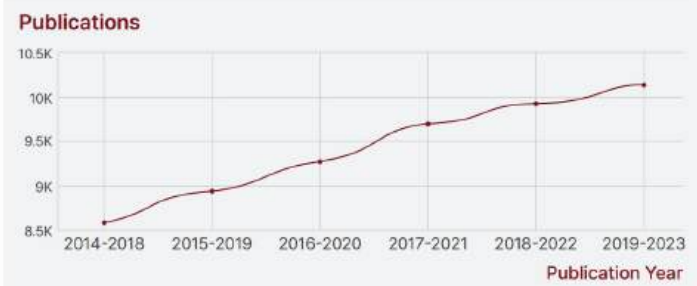

**Medical big data research center**

- Medical Big Data standardization
- New medical services based on medical research data management and processing
- Nurturing innovative research talent

**KU Medicine Research Impact**

[2018-2022]

**KOREA UNIVERSITY**

---

**COLLEGE OF MEDICINE**

- THE** Top 100 medical schools in the THE World University Rankings (2020-2022)
- QS** Top 3 medical schools in Korea in the QS World University Rankings (2024)
- WFME** Highest level certification from the Korean Institute Medical Education and Evaluation
- WFME** First Korean medical school evaluated by WFME (2016)
- BEST** Top score achieved in the Korean Medical Licensing Assessment (2017, 2018, 2021)
- KAUM** Largest Number of Research-driven hospitals in Korea (Anam, Guro)
- KAUM** Largest Number of tertiary general hospitals in Korea (Anam, Guro, Ansan)
- KAUM** Largest number of members elected to the National Academy of Medicine of Korea, recognizing scholarly excellence in medical science (2021-2024)
- KAUM** Medical Library Award from the Korean Medical Library Association (2020)
- KAUM** Highest medical school scholarship <sup>KRW</sup> University: Average annual funding of 2.2 billion Graduate school: Covering 80% of tuition costs

# 1905

**Bosung College**  
: Origin of Korea University  
The nation's first modern private higher education institution.

## KOREA UNIVERSITY

The first private university in Korea, founded to pursue "national salvation through education," has nurtured talent for 120 years under the motto of liberty, justice, and truth, becoming one of the most prestigious private schools in Korea.

**1985**

**Korea University Ansan Hospital** established

**1991**

**Medical school campus & Hospital** relocated to Anam-dong

**2021**

**Cheongdam campus & Mediscience Park** established

**2024**

Completion of the Medical Building 1 extension  
Completion of the Chung Mong-Koo Hall at Mediscience Park

**2025**

**Korea University's 120th anniversary**

**2028**

**Korea University College of Medicine's 100th anniversary**

## Best Infrastructure for Medical Education

### KOREA University (1905-)

· First modern private higher education institution in Korea

**THE** Top 100 medical schools in the THE World University Rankings (2020-2022)

**QS** Top 3 medical schools in Korea in the QS World University Rankings (2024)

### College of Medicine (1928-)

· Cultivating of interdisciplinary medical talent  
· Establishing global standards for medical education

### Guro Hospital (1983-)

· Building Korea's 'Silicon Valley' for medicine  
· Intensive care system

Tertiary General Hospital

Research-driven Hospital

### Ansan Hospital (1985-)

· Located in Ansan, the Smart Health City  
· Tailored medical services with precision medicine programs and specialized treatment

Tertiary General Hospital

### Anam Hospital (1941-)

· Patient-centered smart hospital  
· Centerpiece of the Seoul Bio hub

Tertiary General Hospital

Research-driven Hospital

Obtained the 5th JCI certification

### Mediscience Park (2021-)

· K-Bio medical platform  
· Emerging infectious disease research cluster  
· Medical big data and MRI imaging research center

### Cheongdam Campus (2021-)

· Social contribution outpost  
· Future medicine for specialized patient care

### Status of international exchange programs (Undergraduate)

16 countries 39 institutions
