

EXCHANGE AT CITYU MACAU

Virtue, Knowledge, Practice

www.cityu.edu.mo

Innovative Education, Creating Brighter Future

University-Wide Exchange Program

CityU Macau boasts a robust global network with 230+ international universities, particularly those in Portuguese-speaking countries. We offer 350+ English-taught courses to cater to the learning needs of exchange students from partner universities worldwide. Outstanding students may have the opportunities to have their accommodation fees waived and receive stipends by participating in practical internships in administrative offices.

The University encourages global exchanges and has played an active role in the ERASMUS + program (European Action Scheme for the Mobility of University Students), the University Mobility Asia Pacific (UMAP), and the Association of Universities of Portuguese Language (AULP). These partnerships help gear up exchange and collaboration, enhancing the University's research capacity in producing translational output that benefits society, and providing exchange and internship programs for students and faculty which broaden their horizons with exceptional learning experiences.

About CityU Macau

The City University of Macau (CityU Macau) has inherited the legacy of the University of East Asia – the first university in Macao founded by Chinese patriots in 1981 – and officially renamed to its current title in 2011. With strategic development and reform, CityU Macau has been offering more innovative and interdisciplinary data science-driven programs to meet the needs of society.

Motto

Through its motto "Virtue, Knowledge, Practice", CityU Macau inspires students to acquire knowledge and virtue, and to apply what they have learned for the betterment of society through their actions and practices.

Vision and Mission

CityU Macau pursues the core value of Digital Humanities, Social Sciences, and Interdisciplinary Studies underpinned by Data Science as a fully-fledged Metropolitan University with Macao Characteristics, China Soul, and Global Vision.

City University of Macau is committed to serving the local community, integrating with regional development, while setting sights for international exchanges. It remains grounded while keeping pace with the times, innovating its discipline construction and cultivating high-quality talent.

A Message from Rector Jun Liu

Prof. Jun Liu

Distinguished Professor of Applied Linguistics, Intercultural Communication, Second Language Acquisition and Teaching, and President of The International Research Foundation of English Language Education

With the strong support of the Central Government, the Macao SAR Government, and all sectors of society, the City University of Macau (CityU Macau) has inherited the legacy of the University of East Asia and developed an education hub that aligns with the socio-economic development and fulfills its responsibility and the mission of “Serving Macao, Integrating into the Greater Bay Area.” As a metropolitan university with “Macao Characteristics, China Soul, and Global Vision,” we prioritize Digital Humanities and Social Sciences supported by Data Science and continue to innovate disciplinary structure to educate high-caliber talents with solid knowledge foundations and hands-on capabilities.

Commitment to quality education and research excellence continues to drive us ahead. The University offers interdisciplinary programs with a “5-in-1” pedagogical model that combines International Learning, Experiential Learning, Intercultural Learning, Peer Learning, and Value-Added Learning. We are delighted to witness the University gaining recognitions in international academia over the past decade. Remarkable growth has been seen in faculty expansion aligned with the five pillars outlined for institutional development: Big Data, Fintech, Health and Wellness, Applied Linguistics and Intercultural Communication, and City Development. This year, the Faculty of Finance (FOF) has achieved the Gold status from the Business Graduates Association (BGA). With the new master’s program in Financial Technology, FOF will further advance the University’s interdisciplinary agenda, supported by one of its distinctive disciplines – Data Science.

In response to the SAR’s development strategy, CityU Macau established the Faculty of Health and Wellness (FHW) in 2024 to promote digital healthcare and serve the growing demand for well-being among its citizens. FHW has partnered with leading enterprises and universities in the health-related field. Together with the Research Center for Authenmole Modern Chinese Medicine Big Health, established in 2023, FHW will enable the University to promote translational research, modernize traditional Chinese medicine, and foster the growth of the Big Health industry, propelling the city’s “1+4” appropriate diversification development.

CityU Macau places great emphasis not only on high-quality teaching and learning but also on first-class academic research. With its ten faculties and 17 distinctive research units, the University has undertaken research projects in frontier fields for international organizations, ministries, and the Macao SAR Government. In 2021, CityU Macau, Soochow University, and the University of Évora established the Sino-Portugal Belt and Road Joint Laboratory on Science of Cultural Heritage Conservation under the Chinese Ministry of Science and Technology. This collaboration aims to advance development in materials science for cultural heritage conservation, ultimately preserving local historic building clusters.

In 2023, CityU Macau partnered with Beijing Language and Culture University and East China Normal University to establish centers dedicated to Chinese language education, training for Chinese educators, and people-to-people exchanges with Portuguese-speaking communities. These initiatives aim to strengthen cultural and economic ties, enhance mutual understanding, promote China’s narratives, and solidify Macao’s role as a bridge between China and Portuguese-speaking countries.

Going forward, CityU Macau will continue to solidify its position as a leading metropolitan university with a global perspective and impact. As a people-centric institution, we will promote interdisciplinarity to facilitate comprehensive development and equip students with innovative and entrepreneurial skillsets, leveraging their unique strengths. By optimizing our administrative and academic governance, we aim to make significant progress in the practicality and applicability of our scientific findings for the benefit of society, and nurture future generations to serve the nation and Macao.

Nestled in Macao, a Vibrant Gateway to Greater Bay Area, China, and The World

Macao Unique Positionings

Located in the UNESCO Historic Centre of Macao, CityU Macau offers an exceptional learning environment that fosters global perspectives. The University has a strong network spanning seven continents, strategic partnerships, and a crucial role in the integration of higher education in the Guangdong-Hong Kong-Macao Greater Bay Area and the Guangdong-Macao In-Depth Cooperation Zone in Hengqin – two dynamic economic and technological hubs in the southern China. With its cultural diversity and connections to Portuguese-speaking countries, Macao serves as a gateway to the world. Leveraging these advantages, CityU Macau is poised to expand its academic reach, maximize opportunities, establish a regional presence, and engage in international exchanges.

Teaching and Research

A Cradle of Versatile Talents and Entrepreneurs with International Visions

Over the past decade, CityU Macau has nurtured more than 14,000 high-caliber professionals to support Macao, China, and further afield. The University develops students' interpersonal communication and practical skills for workplace and career progression. Besides, it supports translational research and encourages pioneering business projects, preparing future scholars, scientists, and entrepreneurs through funding, business connections, and stimulating learning environment.

CityU Power to Address City's Needs

At CityU Macau, students are encouraged to keep their fingers on the pulse of the city's dynamics, exploring the city and its diverse cultures to cultivate a well-rounded worldview. With a focus on the needs of the urban society, CityU Macau aims to nurture informed and proactive citizens who can contribute towards building a sustainable city landscape that promotes a high quality of life for its residents.

To strengthen its influence, the following five pillars have been established to steer interdisciplinary academic structure:

- Big Data
- Fintech
- Health and Wellness
- Applied Linguistics and Intercultural Communication
- City Development

Bridging The City, Research Excellence, and Innovation

Leadership Vision
International Accreditation

Faculty of Business

Faculty of Business (FOB) is known for its international curricula. It holds Gold Status of the Business Graduates Association (BGA) and is recognized by The Chartered Institute of Management Accountants (CIMA) and The Institute of Certified Management Accountants (CMA Australia) for its professional setting. Currently, the faculty is conducting a research study on the driving factors for hotel industry to implement green supply chain management in the Greater Bay Area, utilizing its research power to promote sustainable practices in Macao's thriving MICE industry.

The International Business Cohort (IBC) is an English-medium class within the Bachelor of Business Administration that aims to cultivate global-minded business professionals. Students will explore big data, the Belt and Road Initiative, cultures, leadership, innovation, and startups within the scope of business, gaining valuable experience through internships, research assistance, academic projects, study trips, and campus activities. They also have the opportunities to build local and global networks through alumni talks and engagement with industry elites.

Support Interdisciplinarity
Frontier of Science and Technology

Faculty of Data Science

Faculty of Data Science (FDS) leverages its disciplinary strengths to foster innovation and drive the development of smart industries. With 11 laboratories and testing centers, FDS provides a professional learning environment and curriculum structure aligned with international standards. These will prepare knowledgeable professionals to contribute to global technological advancements.

FDS has made significant progress in research and innovation in recent years, pushing the boundaries of knowledge in many key areas like privacy protection models and key technologies for healthcare data in smart medical care.

According to Research.com, Vice Rector Zhou Wanlei, also Dean of the Faculty of Data Science, has been recognized as one of the best computer science scientists in its 2024 ranking. This recognition, coupled with CityU Macau's listing among the Best Computer Science Universities in the World 2024, underscores its commitment to providing high-quality education and research in the field.

FDS graduates are equipped with independent thinking and curiosity with international perspectives, enabling them to tackle real-world cyber issues as global citizens. With the demand for data professionals growing across industries, they can look forward to a wide range of career opportunities both domestically and internationally in various areas, including but not limited to tourism, finance, healthcare to name a few.

Modern Finance
Industry-Academia Collaboration

Faculty of Finance

Faculty of Finance (FOF) holds Gold Status of the Business Graduates Association (BGA) for its professional curriculum and educational setting. FOF emphasizes both theoretical and practical knowledge, as well as financial literacy driven by big data. It has just launched a master's program in fintech, aiming to cultivate international professionals who can thrive in the digital era and cross-cultural workplaces.

With the aim to serve modern financial development in the Guangdong-Macao In-Depth Cooperation Zone in Hengqin and Macao, FOF regularly hosts cross-border finance seminars and invites senior bankers, life insurance agencies, and experts from the region to host special lectures, providing students with practical industry knowledge and insights from experienced professionals.

The Finance Elite Cohort is a four-year undergraduate English-medium class that develops students' knowledge and applicability in applied economics and finance. It focuses on theoretical understanding, practical skills, English proficiency, cross-cultural communication, and an international outlook. FOF has strategic partnerships with renowned universities and the financial industry, providing practical training, research opportunities, and career counseling.

Promoting Digital Humanities
Strengthening Social Development

Faculty of Humanities and Social Sciences

Faculty of Humanities and Social Sciences (FHSS) is home to the Department of Innovative Social Work, General Education Department, and the Institute of Analytical Psychology. FHSS offers programs in Applied Psychology, Cultural Industry Management, Cultural Industry Studies, Social Work, Social Sciences, and Language Education. It prioritizes education, research, and knowledge dissemination, providing students with a comprehensive education for diverse careers in these fields.

Language programs at CityU Macau go beyond just proficiency and competency. These programs also incorporate cultural understanding and appropriate language usage, benefitting students in their future interactions and careers in a multicultural and globalized world. For example, the Bachelor of English program has two strands: Translation and Education, while the Master of Arts in Applied Linguistics offers four strands: TESOL, TCSOL, Intercultural Communication, and Teaching Languages to Young Learners. These settings allow students to acquire not only linguistics competency, but able to turn their passion for language into career and use advanced linguistic skills in employment to solve practical problems in the real world in which languages play key roles.

Faculty of International Tourism and Management

Faculty of International Tourism and Management (FITM) offers accredited bachelor's, master's, and Ph.D. programs in International Tourism and Hotel Management with UNWTO TedQual Certification. Its Hospitality and Tourism Management subject has ranked in the top 20% globally for four consecutive years according to ShanghaiRanking's Global Ranking of Academic Subjects, demonstrating its excellence in education and research.

Serving the city's development as a world center of tourism and leisure, the faculty utilizing its research power driven by nascent industries to spur tourism development. Recently, the faculty is conducting a research project on mechanism and implementation of empowering tourism service innovation with emerging technologies.

FITM graduates excel in managerial roles in the tourism and hospitality industry. They gain industry knowledge and practical experience through internships and practicums at the University's Educational Hotel. Its research-oriented programs also enable students to engage in cutting-edge research, preparing them for advanced studies.

Thriving Campus Life: Finding Your Place

To ensure an immersive campus life during your stay here, we have planned a diverse range of extracurricular activities for you, including cultural, sports, health, and socio-cultural events. Furthermore, we offer professional guidance to students interested in further studies, entrepreneurship, and seeking employment, providing comprehensive support for your future development.

We understand that leaving your comfort zone can be challenging. If you need someone to talk to, we offer psychological counseling services to help you feel comfortable and supported in our community.

We are committed to delivering effective services to our students, so that you can enjoy a happy and fulfilling campus life at CityU Macau. We also encourage and support our students to organize their own activities outside the classroom. By gain practical experiences in event organization, you will develop professional skillsets, teamwork spirit, and excellent leadership abilities, laying a solid foundation for your future careers.

Food on Campus

The campus currently provides three canteens for students, one primarily serving western cuisine, and the other two serving Chinese cuisine. In addition to being able to enjoy the food provided by the campus, students can also order takeout by mobile apps.

Growing in a Like-Minded Community

CityU Macau fosters a diverse and cohesive campus culture, promoting the holistic development of its students. It offers various student clubs, including sports teams, volunteering teams, debating teams, flag-raising team, street dance team, and arts and cultural teams. The University's sports teams have achieved notable success in national and local competitions, while the volunteering team actively contributes to the community. Additionally, CityU Macau has student associations and 26 affiliated clubs covering areas such as Chinese culture, literature, sports, music, dance, volunteering, photography, and animation, providing ample opportunities for students to explore their interests and talents.

Accommodation

CityU Macau has a total of three campuses, allowing students to enjoy a multi-campus learning experience. The main campus is in Taipa and the other two campuses are located in the center of the Macao Peninsula, where many public services are accessible to students nearby. The student dormitories are dispersed throughout the city, providing students with an exposure to diverse cultures in Macao.

University-Wide Exchange Program

For students interested in participating in our University-Wide Exchange Program, please consult the designated exchange office at your university or the Office of Global Affairs at City University of Macau. Students who join the program should be familiarized with the relevant regulations for credit transfer for exchange students.

For information, please contact Office of Global Affairs via oga@cityu.edu.mo
