Why choose Swinburne?

With a degree from Swinburne, you can go anywhere in the world.

London. Singapore. New York. Hong Kong. Our graduates are spread around the globe and work for some of the most dynamic organisations, from startups to not-for-profits to multinationals.

A degree from Swinburne means you'll have the prestige of a globally renowned university paired with the confidence that comes from genuine workplace experience.

When you graduate, you'll become one of thousands of Swinburne graduates around the world who are writing their own success stories. And that's all because a degree from Swinburne sets you up for life.

We were awarded five stars for overall student experience The Good Universities Guide 2024

Work Integrated Learning opportunities

Placements

Gain full-time, paid work experience in your area of study and add it to your résumé. Placements are usually completed in the third year of your degree, so you're ready to launch into your career when you graduate. Certain degrees in some study areas, such as education, engineering, law, nursing and exercise and sports science include mandatory accreditation placements. In other study areas, you can decide whether you want your degree to include work experience. If you do, there are two ways you can accomplish this.

- You've completed or are completing VCE Year 12, an equivalent Australian interstate gualification or the International Baccalaureate If this is you, you can apply for a Professional Degree. These degrees include a 12-month work placement opportunity and are available in arts, business, computer science, engineering, health science, media and communication, and science.
- You're not in a VCE Year 12 or equivalent program

There are two Professional Degrees open for direct entry for international students. They are the Bachelor of Computer Science (Professional) and the Bachelor of Information and Communication Technology (Professional).

• For all other Professional Degrees, enrol in a standard degree then transfer to a Professional Degree later to access the work placement opportunity. You will need to source your own placement and meet the prerequisite criteria of the Professional Degree program. Speak to us or your agent to make sure your chosen degree has a Professional Degree equivalent.

If you've completed or are completing VCE Year 12 but are undecided on a Professional Degree, you can also choose to enrol in a standard degree and transfer to a professional degree at a later stage.

Adobe Creative Campus Australia's first Adobe Creative Campus

We want you to graduate with high digital literacy. That's why all Swinburne students have free access to the full Adobe Creative Cloud suite. That's over 20 Adobe applications. Build your portfolios, personal websites, presentations and so much more.

Purpose

program.

Internships

Internships are part-time opportunities with established organisations that give you allimportant Australian work experience. They usually take place over the course of a semester. While they're typically unpaid, they're perfect for international students. Here's why - internships are covered by your visa conditions, and don't impact your ability to work part-time while you study if it is a compulsory part of your studies. And, if you take an internship as an elective unit, your course length remains the same. It's also a great addition to your résumé and will help you stand out in your future job search.

Industry-linked projects

These projects are included in the subjects you will take during semester. As part of a group of students, you'll take on a live industry project, respond to an industry brief, solve an industry problem or get hands-on with the tools and methods used in your field of study. Together with your group members, you'll create and present a proposal or prototype to industry partners or your classmates. It's real experience that will prepare you for the workplace.

Did you know?

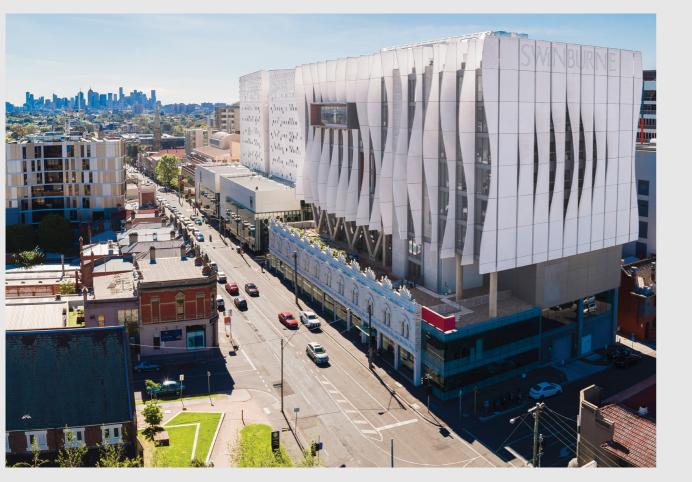

To successfully obtain a placement or internship, you will have to go through a selection process, just like searching for a job in real life. Don't worry, our dedicated Careers and Employability team will help plan your career and guide you in creating a résumé and cover letter. We will also help you prepare for your interview!

Malaysia

Business, design, engineering, IT, science. Graduate with Australian testamurs.

We've invested in technology

Swinburne is committed to providing you with world-class facilities using cutting-edge technology. Our researchers and students search for next generation answers using the best equipment and programs available.

Innovating the way we innovate Factory of the Future

Here, Swinburne helps businesses and innovators (some of whom are its students!) who want to use Industry 4.0 thinking and processes to succeed. In collaboration with clients, the lab can develop new products and methods of manufacturing, as well as more productive business models. Collaborative robots, advanced simulation tools, 3D printers and high-precision scanners assist in everything from optimising manufacturing to developing new factory layouts to translating concepts into prototypes quickly.

Simulating earthquakes for the greater good Smart Structures Laboratory

Earthquakes are just one element that the lab tests for, in search of safer and more efficient infrastructure systems and buildings. It is the only lab of its kind in Australia, filled with A\$15 million worth of equipment – it helps researchers and clients develop innovative materials with lower environmental impacts and cost as well as improved energy efficiency.

Where the next gen of engineers and network specialists train Cisco Networking Laboratory

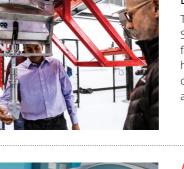

Are you planning to study electrical and telecommunications engineering or networking? Then you'll be receiving industryaccredited Cisco training right here! Every workstation can set up, control and enable a wide range of real-world networking environments, from small to extra large and complex networks. It's got more than 200 routers, 200 switches and 50 firewalls and is better equipped than some internet service providers.

A 3D printer the size of a house Digital Construction Laboratory

That's just one of several large-scale printers you'll find in Swinburne's A\$2 million Digital Construction Lab. It's a unique facility - no other like it exists in Australia! Many of the 3D printers here print in concrete. Researchers and industry practitioners come here to test out cutting-edge methods of construction, like automation and extrusion.

Australia's fastest brain imaging system Swinburne Neuroimaging Laboratory

Our Neuroimaging Lab is the only human imaging facility in Australia and New Zealand to offer magnetoencephalography (MEG), magnetic resonance imaging (MRI) and electroencephalography (EEG). It's a key member of the \$300 million National Imaging Facility project, where the most important brain-related questions can be explored. Researchers from across the country come here to understand human brain function and how it affects behaviour, cognitive development and mental health.

Melbourne: Australia's top student city

Studying at Swinburne means studying in one of the world's most liveable cities.*

Melbourne is Australia's top city and the world's 5th best for students. That's according to the QS Best Student Cities 2025, as voted by real students[†]. With 5 million people from 140 cultures around the world[‡], you'll find yourself completely at home. Swinburne's Melbourne campus is 10 minutes by train from the city and not far from Melbourne's many interesting sights! Just have a look below.

*Melbourne named among the Top 10 most liveable cities in the world by The Global Liveability Index, 2024 [†]QS Best Student Cities 2025 *City of Melbourne melbourne.vic.gov.au

Scholarships

With an international scholarship, you could get up to 30% off your tuition fees.

When you apply for a Swinburne course, we'll automatically consider you for an international scholarship based on the grades of your previous study. If your application for study is successful, you will receive a letter of offer. In that same letter of offer, you will be notified if you have received an international scholarship.

You're also welcome to apply for our general scholarships. You'll find them here: **swinburne.edu.au/scholarships**

George Swinburne International Excellence Scholarship

30% off your tuition fees for the standard course duration.

This scholarship will recognise a student's high academic performance and is available to international students commencing an undergraduate course at our Hawthorn campus for the first time in 2025. If eligible, you will receive 30% off your tuition fees for the standard course duration.

Excluded courses: Bachelor of Nursing, Bachelor of Aviation and Piloting, and one-year honours degree.

Swinburne International Scholarship

20% off your tuition fees for the standard course duration.

This is a merit-based scholarship offered to international students commencing an undergraduate course for the first time at our Hawthorn campus. If eligible, you will receive 20% off your tuition fees for the standard course duration.

Excluded courses: Bachelor of Nursing, Bachelor of Aviation and Piloting, and one-year honours degrees.

Swinburne International Pathway Scholarship

Up to A\$3000 off your tuition fees for the standard course duration.

This scholarship is a merit-based scholarship offered to international students commencing a Swinburne College course, including Swinburne Foundation Program or a UniLink diploma at the Hawthorn campus. If eligible, you could receive up to A\$3000 off your tuition fees for the standard course duration.

Eligibility

You can confirm the eligibility criteria for each scholarship on our scholarship website

"Obtaining a scholarship allowed me to focus purely on my learning and experiences at university. Studying the double degree has helped me narrow down the work I'd like to do once I graduate."

Lois

Bachelor of Design [Communication Design]/ Bachelor of Business scholarship recipient

ELICOS+ Scholarship

Up to 10 weeks ELICOS tuition included in packaged programs, valued up to A\$5000.

If you apply for an English Language Intensive Course for Overseas Students (ELICOS) plus an undergraduate course, you could get up to 10 weeks of your ELICOS tuition refunded.

To be eligible for this scholarship, you must not satisfy the English language requirement of your Swinburne undergraduate course. Once you have finished your ELICOS course and started your undergraduate course, a refund equal to 10 weeks of ELICOS fees – up to A\$5000 – will be deducted from your tuition fees across the first three semesters of your Swinburne undergraduate course.

Melbourne's first Bachelor of Applied Innovation

Study applied innovation and harness the power of innovation to solve complex challenges of today and emerging opportunities of the future.

Swinburne teaches innovation because we want you to stand out in the job market and own skills that will never be replaced by machines. Learn critical and systems thinking, creativity and empathy – skills you can apply in every job and industry. The Bachelor of Applied Innovation* is offered as a double degree pairing[†] with our most popular standard degrees.

Bachelor of Arts

(3 years ♥ Melbourne March, August ③ A\$34,880/year © 088388C Units 4 8 12

Put your passion for a better world into a creative, meaningful career. In the Bachelor of Arts, you'll learn how societies evolve and humans change the world. Expect to focus on the world's most pressing problems, critical thinking, communication skills, cultural competency, digital literacy and building your confidence to make a difference..

Combine this degree with Bachelor of Applied Innovation, Bachelor of Business, Bachelor of Engineering (Honours), Bachelor of Health Science, Bachelor of Laws, Bachelor of Psychological Sciences or Bachelor of Science (double degree duration 4 to 5 years).

Maioring in

and governments.

Career opportunities

Social researcher

Policy analyst

Also see Bachelor of Media and Communication, page 53.

Maioring in

Climate and Social Justice

Grapple with the climate crisis and growing levels of inequality within countries and across the globe. Develop a critical understanding of key concepts such as justice, rights, equality, and sustainability. Engage with essential contemporary debates over what a more just society could look like and explore ways this might be achieved.

Career opportunities

- Environmental officer
- Community advocate
- Policy analyst
- Community development officer · Public administration.

Maioring in

Criminology and Social Change

Gain an understanding of why crimes are committed and how they affect society. Examine the motivations behind criminal activity and learn how to analyse trends, formulate policies and create systems to help prevent it.

Career opportunities

- Journalist
- Public policy analyst
- Welfare worker
- Corrections officer
- · Police officer
- · Community development officer.

Maioring in Indigenous Studies Explore the rich history of Indigenous cultures throughout the world with a particular focus on the Aboriginal and Torres Strait Islander peoples. Learn about fundamental Indigenous concepts, including respect and relationships, connection to country, and kinship. Investigate imperialism and colonialism, and form a deep knowledge of the issues that define Indigenous people's experiences as Australian citizens in

post-colonial society. Career opportunities

- development officer
 - · Public relations executive
 - Policy analyst Cultural liaison officer
 - Advocacy worker
 - Client services officer.

"Being taught by active, passionate, dedicated and successful writers has been inspirational. Not only do they show me my career possibilities, but they also give realistic and encouraging advice on how to succeed in the industry."

Aviation

Join the global flight industry.

Study our Bachelor of Aviation and Piloting, and you could be in a plane in week 3 of your degree. Don't want to be a pilot, but like the idea of managing fleets, working in airports and airline companies? Choose our Bachelor of Aviation Management.

Our graduates are ready for careers in piloting, traffic control, management, compliance, network analysis and more.

Guaranteed real industry experience

All aviation degree students work on collaborative projects to answer real industry problems faced by the industry and organisations such as Qantas and Melbourne Airport. In addition, you'll have the opportunity to apply for placements or internships related to your field of study.

Qantas Future Pilot Program

We have partnered with Qantas to offer a pilot pathway program that qualifies Swinburne's flight crew of the future to fly with QantasLink, the airline's regional brand.

Alex

"In one of my units, my project team was tasked with analysing Qantas airline's financial data and asked to consider how they handled the pandemic, how big their debt was, whether they were making a profit or loss and their overall financial position. We then had to put our findings in a report and provide a recommendation as to whether Australians should invest in the company or not.

Apart from learning so much about portfolio management, I now appreciate the importance of soft skills in professional settings – as a team, we had to give each other feedback in a positive way, understand each person's differing priorities and align everyone's schedules."

Find out more about Alex's study and industry experience \rightarrow

Majoring in

Accounting

Develop skills that are fundamental to evaluating, analysing and communicating the financial position of an organisation or individual.

Professional accreditation

This degree is professionally accredited by CPA Australia, and Chartered Accountants Australia and New Zealand.

Career opportunities

- Accountant
- Business manager
- Project manager
- Administrator
- Risk analyst

Maioring in

Business Administration

Gain an understanding of

organisational management, strategies and principles. Develop practical, theoretical and conceptual skills, and an understanding about how businesses operate.

Career opportunities

- Business administrator
- Business manager
- Human resource officer
- Marketing coordinator
- Project officer.

Maioring in

Business Analytics and Analysis

Learn about business analysis and problem-solving, systems analysis, project management, the provision of IS services, social networking in organisations, and mobile business and connectivity.

Career opportunities

- Business IT manager
- Business analyst
- Information architect
- IT consultant
- · Systems analyst and tester.

Majoring in

Entrepreneurship

Differentiate a business idea from a tangible business opportunity and use innovation theory and techniques to maximise that opportunity. Develop strategic thinking and planning skills, explore business models, interpret sales and marketing opportunities, build an effective team and source capital funding.

Career opportunities

- Business owner
- Entrepreneur
- Venture capital analyst
- Change manager
- Product developer
- Market researcher
- Product manager.

Majoring in Finance

Learn how to analyse and assess financial forecasts and the value of companies, to manage risk, to investigate investment opportunities, and to examine the values of shares and bonds.

Professional recognition

This major is recognised by the CFA Institute Affiliated University Program.

Career opportunities Investment manager

- Financial forecaster
- Business manager
- Project officer
- Administrator
- Risk analyst.

Majoring in

Human Resource Management

Learn about the impact of human resource management as the driver of innovation and high performance in the workplace. Gain the skills and knowledge to manage and coordinate people to achieve strategic business objectives.

Professional accreditation

This major is professionally accredited by the Australian Human Resources Institute.

Career opportunities

 HR adviser HR consultant

HR manager

- 24

Majoring in

Logistics and Supply Chain Management

Learn the skills required to manage the supply chain for an organisation. Gain project management skills, learn how to deal with external partners and develop skills in sourcing materials and negotiating prices.

Career opportunities

- Supply chain manager
- Export control officer
- Logistics manager
- Imports coordinator
- Fleet manager
- Warehouse operations manager.

Majoring in

Management

Learn about the role of management in business and discover how key resources must be planned, monitored and controlled to meet strategic business objectives. Develop the skills to manage yourself, to organise and lead others, to make creative and well-informed decisions, and to evaluate current situations.

Career opportunities

- Project manager
- Business manager
- Change manager
- Administrator
- Customer service manager
- Planning manager.

Organisational change coordinator.

(UniLink) see page 69

Diploma of Information Technology

Learn how to interpret and analyse business data, discover and predict patterns, connect the dots and spot opportunity where others see tumult. Up your leadership game and emerge ready to solve people, process, technology and strategy challenges.

Choose a major in business analysis, or business analytics.

Combine this degree with Bachelor of Applied Innovation, Bachelor of Business, Bachelor of Cyber Security (double degree duration 4 years), or Bachelor of Laws (double degree duration 5 years).

Professional accreditation This degree is professionally accredited by the Australian Computer Society.

Majoring in

Business Analysis

Develop the skills to analyse the requirements of users and learn how to transform business through technology. Discover approaches to analysing economic, social and environmental challenges and developing creative solutions that enable success.

Career opportunities

- Systems analyst
- Systems architect
- Business analystRequirements analyst
- UX analyst
- Technical business analyst
- Process consultant.

Majoring in

Business Analytics

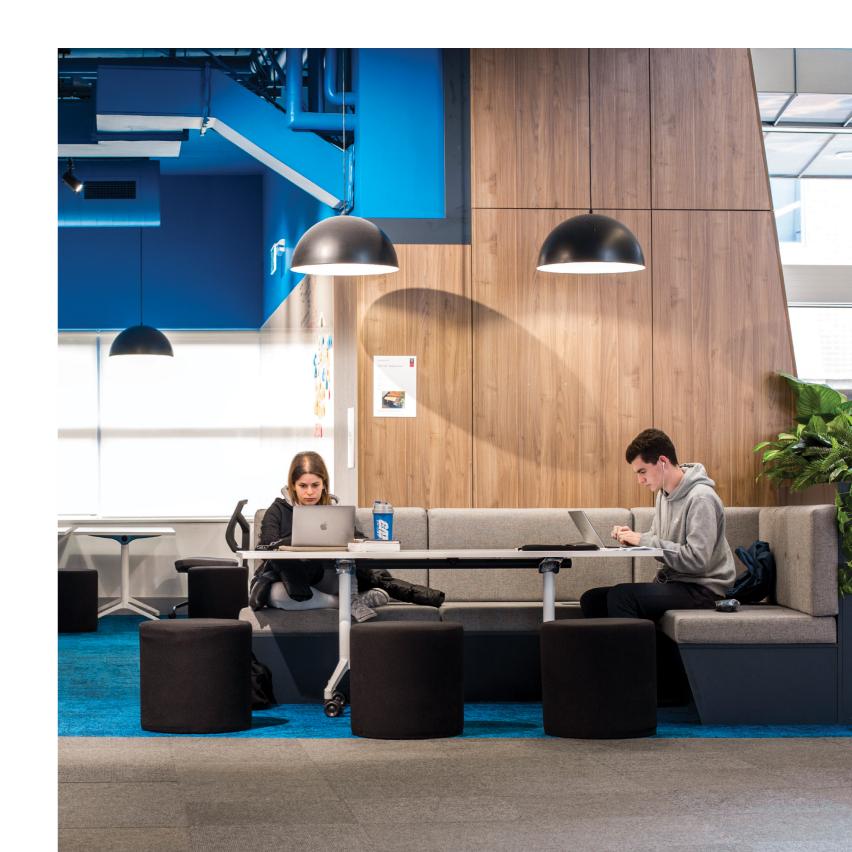

Learn how business intelligence and business analytics are used to solve 'wicked problems' and provide business insight, as well as add strategic value, such as understanding consumer behaviour, creating organisational benchmarking, improving efficiency, and informing decision-making. Discover how business agility can be improved through an understanding of big data.

- Career opportunities
- Business analyst
- Data analyst
- Business intelligence analyst
- Information management specialist
- Business solutions consultant
- Data visualisation specialist.

Settle in for study

Cosy corners designed for solo studying or group discussion can be found all over campus, not least in the AGSE building, home of the business school.

Design

Everything we interact with was created by a designer. Want to influence the future? Here's how.

Learn in our next gen Advanced Manufacturing and Design Centre. Benefit from outstanding industry partnerships and exceptional real industry experience through the Design Factory Melbourne (part of the global Design Factory network) as well as the Innovation Precinct.

Start and accelerate your career in advertising, animation, industrial design, website and app design, furniture design and much more.

Guaranteed real industry experience

In your final Capstone Project as a Bachelor of Design student, you'll team up with other students to work on an industry-related project which complements your major. Should you want to, you could also apply for a placement or internship related to your study.

Professional recognition

Our courses are recognised by leading industry organisations. As a Swinburne student, you'll enjoy the benefits of recognition and membership.

Bachelor of Design

ⓑ 3 years ♥ Melbourne ♥ S March, August ⑤ A\$41,240/year ⑥ 088395D Units 8 8 8

Complete core units in your first year that introduce different design fields and to assist in selecting a major.

Choose from studies in branded environments, communication design, motion design, photomedia, and UX interaction design.

Combine this degree with Bachelor of Applied Innovation, Bachelor of Business or Bachelor of Media and Communication (double degree duration 4 years).

Also see Bachelor of Design (Architecture) and Bachelor of Design (Interior Architecture) (Honours) page 21.

Majoring in Branded

Branded Environments

This multidisciplinary course integrates communication design, interior architecture and environmental and experience design principles. You'll take a brand's identity beyond the visual and translate it into three dimensions. Learn how to think conceptually and communicate visually in our collaborative studios. Explore contemporary retail design and branding design problems.

Career opportunities

- Exhibition designer
- Visual merchandiser
- Interior designer
- Set designer
- Communications designer
- Communications researcher.

Majoring in

Communication Design

Develop your design thinking and practice in order to prepare you to thrive in today's fast-paced digital environment. Learn core specialisms such as typography, image-making, brand and identity, 3D form packaging, information design, web design and publication design. Combine them with strategy, concept development and design to create razor-sharp ideas that cut through the competition

Career opportunities

- Communications designer
- Web designer
- UX designer
- Interaction designer
- Experience designer
- Design consultant.

Majoring in Motion Design

Design and motion come together in the future of visual communication. Mixing graphics, type, animation, video, photography and sound, you'll become a creative communicator for the whole range of digital platforms.

- Career opportunities
- Motion designer
- Digital designerAnimator
- Video producer
- Design consultant.
- _____

Majoring in

Photomedia

Get set to turn your concepts into arresting campaigns, publications and digital products. Through photography lessons and workshops on experimental image processing, you'll gain a rich, foundational knowledge of how lighting, art direction, commercial studio practice and cutting-edge technological processes produce truly memorable images.

Career opportunities

- Photographer
- + Video and motion graphics specialist
- Advertising consultant
- Design consultant.

"COVID-19 has really shown Swinburne's ability to adapt to significant change, and to support their students through challenges. The support given to me personally during my time at Swinburne has been incredible. From the Learning and Academic Skills Centre providing academic support, to a more personal touch through emails from lecturers asking how my studies or placement was going and if they could offer any additional help. These small details are what helped me the most while studying, simply for the fact that I knew someone was there if I needed."

Bachelor of Education (Early Childhood and Primary)

Gain the skills needed to teach children from birth to twelve years old in centres, kindergartens and primary schools. Choose from specialisatio Mathematics and English.

You'll complete 91 days of placement during the course to put into pract you'll learn and to gain practical experience in the classroom.

Professional accreditation This degree is professionally accredited be Australian Children's Education and Care Quality Authority (ACECQA) ar Victorian Institute of Teaching (VIT).

Bachelor of Education (Early Childhood Teaching)

Learn how to nurture the curiosity of children up to five years of age and a lifelong love of learning. Become a qualified early childhood educator in kindergartens, preschools and early learning centres. You'll complete fou professional placements, which adds up to around 80 days of real classro experience guided by an experienced mentor.

Engineering

If you love solving complex problems, using logic and building things, this could be your career.

All engineering students start with a common first year, so you have a chance to explore your interests before deciding on a major. Choose from architectural, biomedical, civil, electrical and electronic, mechanical, product design, robotics and mechatronics or software engineering.

You could work in the building and construction sectors, or in software, transport, industrial design, energy and civil infrastructure industries.

Guaranteed industry experience

In the Bachelor of Engineering (Honours) you'll develop technical and management skills across 8 industry-linked projects, each building on the previous one. You also have the option of applying for further placements or internships.

Professional recognition

Our engineering degrees are professionally accredited by Engineers Australia. Graduates are also eligible to register with the Board of Engineers Malaysia (BEM).

Civil Engineer, Taylor Thomson Whitting Bachelor of Engineering (Honours) graduate

Wendy

"Swinburne helped me find real industry experience through a professional placement with Bass Coast Shire Council. My position was titled Student Engineer and the organisation treated my contributions seriously. I was given considerable responsibilities and roles on projects – I was happy that I could learn so much so quickly. I continued on with the organisation until I graduated from Swinburne. At that point, they offered me the title of Design Engineer. Of course I said yes!

I feel lucky that the professional placement led to extended employment – how many engineering graduates can say they left university with over 2 years of industry experience?"

Find out more about Wendy's study and industry experience \rightarrow

Combine this degree with Bachelor of Applied Innovation (double degree duration 4 years).

Shortlisted for an Oscar

An Oscar-shortlisted short film was an impossible dream when they started a Bachelor of Film and Television at Swinburne. But for Andrew Goldsmith and Bradley Slabe, along with fellow alumni Rennie Watson and Dave Abbott, it became a very exciting reality when their seven-minute animated stop-motion film, Lost & Found, was shortlisted for the 2019 Academy Awards. It took the team three years of story development,14 months of shooting and almost 6,000 hours of work to bring the film to life, and it all began at Swinburne.

"Swinburne had a reputation for being a top film course that was both theoretical and hands-on, which appealed a lot to me," says co-director Andrew. "Another valuable part of the course was forming relationships with people who are the future of the industry."

Andrew Goldsmith and Bradley Slabe, Rennie Watson, Dave Abbott

Film and Television (Andrew and Bradley), Design (Rennie), and Multimedia and Media Studies (Dave).

Games and Animation

Create games or join the gamification revolution.

We don't just make games for fun. Gamifying any experience is a great way to help people remember information and feel engaged. From education to consumer products, every industry now uses some form of gaming to connect with customers and employees. And all games need animators. So let's get your career started, now.

Guaranteed industry experience

Based on which degree you choose, you'll team up with your fellow students to create and showcase a game or pitch, develop and produce an animated project for exhibition. You'll also have the opportunity to apply for a placement or internship that complements your area of interest.

Professional recognition

Depending on your major, you may be eligible for membership in the following organisations:

- $\cdot\,$ Australian Interactive Media Industry Association
- Games Developers' Association of Australia
- Computer science (majoring in games development) degrees are accredited by the Australian Computer Society (ACS).

Organisations that have hosted our students

- EA Firemonkeys
- Robot Circus
- BES Animation
- Studio 21-19
- Chimney Group.

Best student game in the world

It's a pretty handy credit to add to your LinkedIn profile. And it's one that a group of Swinburne students claimed at LA's prestigious The Game Awards in 2017. Their entry, a 2D puzzle platformer game called *Level Squared* (or *LVL*²), won the inaugural Student Game Award, beating out entries from all over the world. Not bad for a first effort.

In accepting the award, design lead and student Stephen said Swinburne is "the best place in Australia to learn how to make games". The entire team, known as Glitch Crab Studios, said that having access to The Arcade and the mentorship of Swinburne's teachers were crucial to their success.

aw

The only university in Victoria that lets you qualify for admission to legal practice on the day you graduate.

Save six months, or even a year, off your studies by enrolling in the Graduate Diploma of Legal Practice at the Leo Cussen Centre for Law, while completing your final year of the Bachelor of Laws. We emphasise innovation, technology and intellectual property in our courses. To really stand out, consider studying a double degree.

Guaranteed industry experience

As a Bachelor of Laws student, you'll complete three 20-day placements in a range of different legal settings. You'll also have a chance to work with real clients, designing a new generation of legal products in our Legal Technology and Design Clinics.

Professional recognition

The Bachelor of Laws satisfies the academic requirements to qualify for admission to practise as a lawyer in the Victorian and Australian Federal legal systems as set by the Victorian Legal Admissions Board. The graduate diploma offered with the Leo Cussen Centre for Law complies with the Practical Legal Training Component of qualifying to become an Australian lawyer.

Organisations that have hosted our students

- · Coroners Court of Victoria
- Frenkel Partners Lawyers
- Hall & Wilcox
- IP Australia
- Law Institute of Victoria
- Victoria Legal Aid.

Bachelor of Laws

() 4 years ♥ Melbourne March, August ③ A\$43,280/year © 085629D Units 19 13 3

In this well rounded and unique law degree you will discover how technology is transforming legal practice and learn the skills required to succeed in this new era. With a focus on legal tech, commercial law and an emphasis on intellectual property law, you'll learn how to protect the rights of those who create and innovate. You'll also undertake three professional placements of 20 days each and graduate with both legal experience and industry contacts.

Professional accreditation This course satisfies the academic requirements for admission to practise as a lawyer in the Victorian and Australian federal legal systems. Non-academic requirements must also be satisfied for admission to practice.

Combine this degree with Bachelor of Arts, Bachelor of Business, Bachelor of Business Analytics and Analysis, Bachelor of Computer Science, Bachelor of Criminal Justice and Criminology, Bachelor of Cyber Security, Bachelor of Engineering (Honours), Bachelor of Media and Communication, Bachelor of Psychological Sciences or Bachelor of Science (double degree duration 5 to 6.5 years).

Bachelor of Nursing

(ⓑ 3 years ♥ Melbourne ∰ March (⑤ A\$43,280/year ⑥ 097923K Units 24

Undertake hands-on laboratory work and training in our new and redeveloped state-of-the-art clinical laboratories.

Complete clinical work placements in a range of health settings, including acute hospital, aged-care, day surgery or mental health environments in metropolitan or regional areas.

Professional accreditation This degree has been accredited by the Australian Nursing and Midwifery Accreditation Council and is listed as an approved program of study on the Australian Health Practitioner Regulation Agency (AHPRA) website.

Students are required to have a valid police check and Working with Children Check. Evidence of a completed adult vaccination program is required before clinical placements are undertaken.

Career opportunities

Registered nurse.

Cutting-edge facilities

Our new state-of-the-art nursing facilities will ensure you're getting practical training and working with the latest technology and equipment right from the start of your study. Gain hands-on experience in our purpose-built nursing labs, and put what you've learnt to the test in our Simulation Ward. Here, you'll work with high-tech mannequins that simulate various physiological symptoms in a hospitalstyle environment, and watch others in action from the Observation Deck. It's all designed to prepare you to feel confident in administering patient care in a range of health settings on placement and beyond.

Psychology

Explore human nature. It's knowledge you could apply in so many different fields.

We combine theory and practical skills in our teaching. And once you uncover the secrets of the human brain, you'll be able to understand what motivates actions and behaviours.

Start a career in forensic psychology, clinical practice, counselling, human resources, marketing, journalism, policy development and more.

Guaranteed industry experience

Psychology and psychological sciences students will work on industry-linked research projects. Depending on your degree, you may also have the option to apply for a placement or internship.

Professional recognition

The Bachelor of Psychology (Honours) and the three-year undergraduate major in psychology are professionally accredited by the Australian Psychology Accreditation Council.

The largest psychology clinic in Australia

For Samantha, taking high school biology and reading true crime sparked her interest in forensics. Passionate about both psychology and biology, particularly the workings of the human brain, Samantha was disappointed to think she could only choose one area for undergraduate study.

"Most universities offer forensic science or forensic psychology only at a postgraduate level. So, when I heard about this course at Swinburne, I was thrilled!"

After graduating from her 'perfect combo' course, Samantha plans to gain industry experience before returning to Swinburne to undertake the integrated PhD program.

Samantha

Bachelor of Psychological Sciences

ⓑ 3 years [®] Melbourne
[─]March, August ⓑ A\$40,600/year [®]088389B Units 4 8 12

Gain the knowledge and skills to understand and explain human behaviour and relationships.

Learn about abnormal psychology, cognition, developmental psychology, personality, social psychology and statistics, as well as biology, chemistry and physiology.

Professional accreditation The three-year undergraduate major in psychology is professionally accredited by the Australian Psychology Accreditation Council.

Combine this degree with Bachelor of Arts, Bachelor of Criminal Justice and Criminology (double degree duration 4 years).

Science

From global health to the climate and oceans to space, make discovery your everyday goal.

Focus on practical learning and research. Experiment in our state-of-the-art laboratories. Grow your connections with national and international researchers and industries. We'll teach you to have a scientific mindset, which is in demand by so many fields. You can even add Space Technology as a second major to your course.

Guaranteed industry experience

Science degree students will work on three industry-linked projects – one for every year of study. This includes the unit, Grand Challenges in Science, in their final semester, where you'll work with an industry, community or academic partner. You'll have the additional opportunity of applying for a placement or internship.

Professional recognition

Our science courses are recognised by leading industry organisations. The Australian Institute of Physics (AIP) has accredited the below courses and its related major and minor combinations:

- Bachelor of Science with a major in Physics
 and a Mathematics minor
- Any double degree with a major in Physics and a Mathematics minor.

Graduates may be eligible for membership of a number of organisations relevant to their major area of study, including:

• Double degrees may provide additional opportunities for membership of leading industry organisations.

Learn to solve problems with a scientific mindset and choose from majors including applied mathematics, physics, chemistry, biochemistry, biotechnology and environmental science. Gain the skills, knowledge and key insights required to work in a range of professional scientific environments.

Combine this degree with Bachelor of Applied Innovation, Bachelor of Arts, Bachelor of Engineering (Honours), Bachelor of Health Science or Bachelor of Laws (double degree duration 4 to 5 years).

Also see Bachelor of Health Science page 44.

Maioring in

Applied Mathematics

Gain a broad understanding of mathematical and numerical methods used to describe phenomena and to predict behaviours. Explore how to make sense of big data and complexity. Learn to model fundamental processes in physical and life sciences, social sciences, consumer behaviour and finance.

- Data analyst
- Quantitative analyst Mathematical modeller
- Scientific programmer
- Actuary
- · Meteorologist and climate modeller.

Majoring in

Biochemistry

Study the molecules of life and the fundamental nature of matter in terms of molecules, reactions and properties. Examine how biochemical knowledge can be applied to a range of industries and medical investigations, focusing on skills such as culturing microorganisms and investigating complex molecules, including enzymes and DNA.

Career opportunities

- Medical researcher
- Clinical biochemist
- Diagnostic laboratory scientist
- Pathology scientist
- Research assistant
- · Research and development scientist.

Majoring in

Biotechnology

Examine the fundamental sciences that underpin biotechnology – chemistry, biochemistry, microbiology and statistics - while investigating the application of biotechnology to areas such as business, ethics and environmental science.

Career opportunities

- Medical researcher
- Clinical biochemist Diagnostic laboratory scientist
- Pharmaceutical scientist
- Forensic scientist.

Majoring in Chemistry

Learn far-reaching applications of chemistry, including forensic science, polymer formation, water analysis, the creation of new materials, agricultural chemistry, environmental science and analytical chemistry.

Career opportunities

- Medical researcher
- Clinical biochemist
- Diagnostic laboratory scientist
- Food/beverage production technician
- · Pharmaceutical scientist.
- Financial analyst
 - Meteorologist
 - Climate modeller

Environmental science

Learn about the relationship between local, global, social and ecological issues and the responsibility of the different groups involved in sustainability. Gain scientific skills, such as chemistry, biology and microbiology, to address environmental sustainability in the future.

Career opportunities

- Environmental sustainability scientist
- Sustainability analyst
- Water quality expert Plant and animal breeder
- · Environmental analyst.

Majoring in

Physics

Gain fundamental knowledge of classical and modern physics, astrophysics and the physics of nanoscience and technology, as well as hands-on experience in experimental physics. You can also undertake a co-major outside your major field of study such as space technology.

Career opportunities

- Astrophysicist
- Renewable energy specialist
- Statistician

Royal Institution of Australia, Research Fellow Astrophysicist, Lead Scientist of the Swinburne Associate Professor and

Alan Duffy

Star Power

From black holes to the Big Bang, Associate Professor Alan Duffy is one of Australia's top experts on all things galaxy-related. His research into dark matter and astrophysics has led to regular appearances in the media and on television, including Australian shows like The Project and News Breakfast, to explain science in ways we can all understand. In fact, his ability to communicate complex scientific ideas and discoveries in an engaging way won him the national 2018 Celestino Eureka Prize for Promoting Understanding of Science. Recently, he added to his impressive list of awards with the Academic of the Year nod at the inaugural Australian Space Awards. He also launched Swinburne's latest endeavour, the new Space Technology and Industry Institute, in January 2021. For Alan, the sky is definitely not the limit.

English language programs

ELICOS+ Scholarship

- English classes packaged together with your Swinburne course.
- Get refunded for up to 10 weeks' worth of ELICOS tuition fees in the first three semesters of your course.
- That's up to A\$5000 worth of English lessons.
- This offer is exclusive to Swinburne and will help raise your English to university standard.

Why study English at Swinburne?

- Swinburne is placed in the Top 1% of universities worldwide¹
- We are rated 5 Stars for the quality of our educational experience²
- Progress directly into other Swinburne courses
- Personalised study experience and extensive student support
- Free English testing
- Maximum of 18 students per class
 Studying in Australia's no. 1 student citv³.

¹ QS World University Rankings 2025 ² The Good Universities Guide 2024 ³ QS Best Student Cities Ranking 2024

What will it cost?

A\$500 per week. Course duration is from 5 to 60 weeks, depending on your ability and goals.

When can I start?

Don't wait to start improving your English. We run classes every five weeks:

- 6 January 2025 14 July 2025
- 10 February 2025 25 August 2025
- 17 March 2025 6 October 2025
- 28 April 2025
 2 June 2025

General English (levels GE 1 to GE 2)

These are your English essentials. Our fun and interactive classes are designed to maximise your independence and personal development. Improve your overall English so you can speak with confidence and take our higher level English programs.

English for Academic Purposes (levels EAP 3 to EAP 5)

These courses are a step up from General English and will give you direct pathways into Swinburne's certificate, diploma, bachelor, master and even PhD courses. Learn communication skills for a higher level of study and how to think critically.

These classes use scientifically supported learning strategies and real-world case studies. You'll learn how to analyse and respond to a range of current media.

English language requirements for undergraduate study

Successful completion of one of the following English language requirements:

- Swinburne's EAP 5 (Advanced level) with overall 65% and all skills 65% or above
- Minimum IELTS overall band of 6.0 (Academic Module) with no individual band below 6.0
- TOEFL (internet-based) minimum score of 64 with no band less than 13 in reading, 12 in listening, 18 in speaking, 21 in writing
- Pearson (PTE) minimum score of 50 (no communicative skills less than 50).

Note: the Bachelor of Education, Exercise and Sport Science, Law, Nursing, Psychological Sciences, Psychology (Honours), and professional degrees have higher English proficiency requirements. Refer to Course Search for more information: swinburne.edu.au/study

Foundation Program

Swinburne Foundation Program is a pre-university program for international students.

It is designed to help you make a smooth transition into university by developing your study and learning skills.

At Swinburne, you can be confident of receiving the highest quality teaching in a nurturing and student-focused environment.

Pathway opportunities

On successful completion of the Swinburne Foundation Program, you're guaranteed a place in your preferred degree at Swinburne as long as you meet the bachelor degree entry requirements and prerequisites.

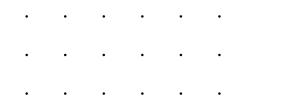

If you don't wish to transfer directly into a bachelor program, you can keep studying in a supportive environment through one of our UniLink diploma programs, before entering the first or second year of a Swinburne bachelor degree.

Progression requirement

Students completing the Foundation Program must achieve at least 65% average overall and a 60% average in Academic and Communication Skills A and B for entry to a bachelor degree. Note that some degrees require a higher percentage average overall for entry.

Students intending on progressing to:

- an Engineering course, must complete MTH00012 Foundation Mathematics.
- a Design course, must complete at least one of DDD00002 Design Fundamentals, or GRA00004 Drawing and Illustration.

Foundation Program structure

A supportive and friendly environment

At Swinburne, you can be confident of receiving the highest quality teaching in a nurturing and student-focused environment.

UniLink Bridging Program

The UniLink Bridging Program is your pathway to a UniLink diploma if you don't meet the entry requirements. You'll build your knowledge in business, design or engineering while you gain the confidence to communicate at a tertiary level in Australia.

Complete the UniLink Bridging Program if you:

- completed an Australian Year 12 or equivalent qualification but did not meet the entry requirements for a UniLink diploma
- do not have the prerequisite subjects required for business, design or engineering programs
- would like to transfer from another Australian education provider to Swinburne's UniLink diploma and don't meet the entry requirements.

Progression requirement

Students completing a UniLink Bridging Program must achieve at least 50% average overall for entry to a UniLink diploma.

UniLink diplomas

UniLink diplomas are accredited, award-level higher education qualifications that provide an alternative pathway to the second year of a range of bachelor degrees offered at Swinburne.

The course content is similar to the first year of a bachelor degree but the classroom environment is different. Classes are smaller and you will have more individual attention from your teachers to help you adjust to university. Your class will include local and international students, providing an enriching study experience.

Pathway opportunities

By successfully completing all units of study of a UniLink diploma, you're guaranteed a place in the first or second year of a Swinburne bachelor degree. The stream you choose will develop the study skills specific to your area of interest and prepare you for success in your bachelor program.

At Swinburne Melbourne, UniLink diplomas are available in:

- Arts and Communication
- Business
- Design
- Engineering
- Health Science
- Information Technology
- Science.

Did you know?

If you have completed a recognised Year 12 plus at least part of a recognised tertiary qualification, you may be able to achieve advanced standing which may shorten the duration of the program.

Progression requirement

Students completing a UniLink diploma must pass all units of study for entry into a bachelor degree.

Optimising your university experience

From the day you start planning to move countries till the day you graduate, we have all the information you need to make your Swinburne experience amazing.

Living options, costs and visas

From on-campus apartments to living with a host family, explore all your options here.

We understand how important it is for you to plan your budget carefully. Find out what things cost in Melbourne and how banking works here.

Discover all the information you need to apply for an Australian student visa here.

Feeling confident

We're here to help you through all aspects of life during your time at uni.

Support services

We're geared up to help you with:

- careers and employment
- counselling
- health
- housing
- disability support
- financial advice advocacy and legal advice
- childcare.

Safety services

We take your safety seriously. Access these services any time you need them.

- take the Hawthorn Night Bus home if you live in the neighbourhood
- ask a patrolling security officer to walk you anywhere on campus
- · link to emergency and support services, safety tools and campus maps via the Safe@Swin app • speak to our Safer Community team for
- support on bullying, harassment and more.

International Student Advisers

Our dedicated team is here to answer any question you may have, whether big or small. Visas, accommodation, finding a job, help during emergencies and more. Read all about them.

Finding community

Get involved, volunteer and make social connections.

Life at Swinburne

Immerse yourself in campus life and make the most of the many opportunities available while studying at Swinburne. Find clubs, sport, volunteering and leadership opportunities here.

How to apply

Follow these steps carefully to ensure your application is processed properly.

Check your start date

Visit **swinburne.edu.au/study/options/find/start-dates** to check start dates for intakes. If you're an offshore international student, you should apply at least 3 months before your intake's start date.

2 Gather your documents

- Certified academic transcripts with grading system
- English translations where applicable
- Certified English proficiency test results
- Referee reports (if applicable)
- Portfolio (for design courses, if applicable)
- · Course or unit syllabus if you're applying for credit transfer or Recognition of Prior Learning
- Copy of passport (photo page and relevant visa page).

Complete your application

Visit student-swinburne.studylink.com

If you need help, please speak to your registered Swinburne representative in your home country.

Wait for your offer

We will assess your application. If you're successful, you will receive a letter of offer via email. The letter will indicate the:

- course you've been offered
- annual tuition fee*
- student services and amenities fee^t
- course commencement date
- course duration
- deposit you need to pay
- fee for your visa-length overseas student health cover
- conditions to the offer.

*Tuition fees are based on a standard full-time study load per year. All fees are subject to annual review and may be adjusted. Visit **swinburne.edu.au/courses/fees/fees-for-international-students/** to learn more about fees. For the indicative fee for your course, see the course entry in this guide or visit the 'Fees' section on the course webpage

- swinburne.edu.au/courses/find-a-course/
- ¹Tuition fees are generally inclusive of the Student Services and Amenities Fee (SSAF). Visit **swinburne.edu.au/courses/fees/student-services-amenities-fee/** to learn how the SSAF is used.

Accept your offer

Accept by the date specified in your offer letter. Visit **swinburne.edu.au/study/international/offer** to find out how to accept your offer.

Note: If you receive a conditional offer, you need to meet the condition(s) outlined in your offer letter.

Visit swinburne.edu.au/study/international/apply for detailed application instructions.

If you need help with your application, email our application adviser at international@swinburne.edu.au

You can also speak with a registered Swinburne representative in your home country. Visit **eap.ascentone.com/swinburne** to search for a list of Swinburne representatives in your country.

Other information

Applying for credit transfer

What is credit transfer?

Credit transfer is exemption from certain course requirements in recognition for previous study. The term 'credit' is used interchangeably with 'Recognition of Prior Learning', 'advanced standing' and/or 'status' in Australian universities.

How to apply for credit transfer

You can apply for credit transfer by submitting a course or unit (subject) syllabus or other evidence of your skills with your application. You must also indicate on your application form that you're applying for credit transfer.

If you're applying for credit transfer for a design course you may need to submit a portfolio.

If your application for credit transfer is successful, your letter of offer will state the updated course duration and the amount of credit for which you have been assessed. If you do not apply for credit transfer when you submit your application, you can do so within the first week of commencing your course. Applications for credit transfer made after this time may not be approved.

Applying for your student visa

You'll need to obtain an Overseas Student Confirmation of Enrolment (CoE) from Swinburne to complete your student visa application. Your CoE must accompany your application.

Visit homeaffairs.gov.au for more information

Overseas student health cover

All student visa holders must have overseas student health cover (OSHC) for the duration of their study.

Swinburne will arrange your visa-length OSHC membership with our preferred provider, Medibank Private. The OSHC fee will be included with your deposit indicated in your letter of offer.

Visa-length OSHC membership is a once-only payment that provides rate protection for the duration of the visa. This means that even if OSHC fees increase during the duration of your visa, you do not have to pay any increase.

If you need to extend your OSHC (for example, if you fail some units and need to extend your stay in Australia to complete your course), it is your responsibility to do this directly with the OSHC provider. Additional fees will be charged at time of renewal.

Visit swinburne.edu.au/study/international/visa/overseasstudent-health-cover

3

4

5

Students under 18

If you're under 18 years of age, your parents must nominate a guardian who lives in Australia before you can be considered for a student visa. Your guardian must be over 21 years old, related to you and of good character.

If you do not have an appropriate guardian with whom you may live in Australia, you'll need to engage a Swinburne-approved care provider. This arrangement will include accommodation restrictions and places may be limited depending on the availability of suitable accommodation options.

Students with families

If you plan to bring your family to Australia, check if any restrictions apply by contacting the Department of Home Affairs or the Australian diplomatic mission in your country. You'll also need to hold OSHC membership for your family.

Visit swinburne.edu.au/study/international/plan-arrival/family

Children

If you have children between five and 15 years of age who you plan to bring to Australia, you must enrol them in school. Full fees are payable at both government and non-government schools.

If you'll be enrolled as a postgraduate research student at Swinburne, the Victorian Government may provide exemption from tuition fees in Victorian government primary and secondary schools for your children.

Visit **education.vic.gov.au** to find a complete list of Victorian primary and secondary schools. Information about fees, applications and enrolment for government, primary and secondary schools may be found online at **study.vic.gov.au**

Applications to non-government schools must be made directly to the school of your choice.

Note: Your student visa assessment criteria may change if your family is accompanying you to Australia.

Your rights and responsibilities

The Educational Services for Overseas Students (ESOS) Act regulates the education and training sector's involvement with overseas students studying in Australia on student visas.

Visit **studyinaustralia.gov.au/global/australian-education/** education-system/esos-act to read a description of the ESOS framework.

Restrictions may apply if you wish to change your enrolment. Visit **swinburne.edu.au/current-students/manage-course/ enrolment-timetable/time-off/international** for more information about deferring, suspending or cancelling your enrolment.

Visit **swinburne.edu.au/current-students/manage-course/ fees/fees-for-international-students/refunds** to read Swinburne's refund provisions, which are outlined in the offer acceptance form.

Glossary of terms

Word	Definition	Example
Unit	A subject within a course. Units are assigned credit points, some are worth 12.5 credit points, and some are worth 25.	'l'm doing 4 units this semester.'
Credit points	Used to measure study load, course progress and completion.	This unit in my Business degree is worth 25 credit points. It's an industry-linked project and carries more weight.'
Major	The primary area of study, it usually totals 100 credit points.	'l am doing a Bachelor of Business, majoring in Entrepreneurship and Innovation.'
Minor	A secondary area of interest, it usually totals 50 credit points.	'l am doing a Bachelor of Business, majoring in Entrepreneurship and Innovation with a minor in Finance.'
Elective	A unit that is optional and can be unrelated to the main areas of study. Usually 12.5 credit points per unit.	'l am doing a Bachelor of Business, majoring in Entrepreneurship and Innovation, with a minor in Finance and electives in Organisation Behaviour and Managing Workplace Relations.'
Semester	The academic year is divided into two: semester one, January to June; semester two, July to December.	'I will be going on the Business Innovation in Europe Study Tour in the second semester of 2021.'
Nork Integrated Learning	Opportunities that include professional internships, industry-linked projects and study tours.	'There are so many Work Integrated Learning Opportunities. I'm trying to decide between an Internship and an Overseas study tour, or both!'
Prerequisite	A mandatory minimum requirement for course entry.	A course may require students to have achieved a raw score of at least 25 in Year 12 English or at least 30 in English (EAL).
Pathway	A course that can lead on to another course, often the 'dream course.' Some pathways offer 'credit' for units that are similar / the same.	Diploma of Business (UniLink) offers 8 units credit exemption. Meaning that when students successfully complete the UniLink Diploma, they can move on to the second year of the Bachelor of Business.
Bachelor degree / degree / undergraduate degree / undergrad	A post-secondary-school qualification that is awarded by a university.	 'I'm busy doing my undergrad in Business.' 'I'm busy doing a bachelor degree in Business.' 'I'm doing an undergraduate degree in Business.'
