Our Medical Practice Even Better! A Decision Brain Investing & Worthtaking!

ABOUT US

Alfaisal University was founded by the highly reputed King Faisal Foundation in 2002 as one of the first private non-profit, research and teaching universities in the Kingdom committed to achieving international standards of excellence. It has the support of national and international co-founders and distinguished Board Members that have been continually supporting the university in its mission to remain a student – centered institution committed to research.

WHY CHOOSE STUDYING MEDICINE AT ALFAISAL UNIVERSITY

We aim to serve humanity and the community through the best medical practice! Medical Education, Clinical Knowledge, Clinical Skills, and Performance!

Years of success being piled up along Alfaisal's educational ladder, the College of Medicine is proud to be part of that success story!

We had a vision and mission to be a world class research university and to be an international student centered college is now a reality, and today we compete to be the best College of Medicine in the region and we aim to be ranked among top international colleges. With the state-of-art campus and labs and with the help of our distinguished faculty, our students are achieving the top scores in national and international exams, publishing in the top journals and presenting their own research in the best worldwide medical conferences.

2

WITHIN THE JOURNEY: PROGRAM, CURRICULUM, AND COURSES OVERVIEW

College of Medicine at Alfaisal University offers an undergraduate program and many graduate programs. MBBS is a student centred, problem based, integrated, and community oriented undergraduate program which is offered over a span of six years. Students spend three years in learning basic sciences and two years in clinical sciences followed by one year of internship. This hybrid curriculum emphasizes on small group and problem-based learning integrated with clinical skills training and community-based experiences, alongside lectures. College of Medicine is affiliated with Partners Healthcare International (PHI) USA, King Faisal Specialist Hospital and Research Centre (KFSH&RC), in addition to other collaborations.

3

AN EVERLASTING JOURNEY MILESTONES

A

STUDENT'S ACHIEVEMENTS

- PROGRESS TEST

All medical students sit for the exam at the same time and are tested on their comprehensive understanding and knowledge of all the subjects they learned throughout medical school. The exam aims to monitor the individual learning paths of students.

Alfaisal College of Medicine's students have harnessed the highest results among other medical schools in the Kingdom on the nationwide progress test (PT).

- USMLE AND SMLE

The United States Medical Licensing Examination (USMLE) and Saudi Medical Licensing Exam (SMLE) assesses a physician's ability to apply knowledge, con-

cepts, and principles, and to demonstrate fundamental patient-centered skills, that are important in health and disease.

Alfaisal COM students are exhibiting a high passing average of more than 85% of applicants where they have scored higher than the average passing of international medical graduates in performance, clinical knowledge, and clinical skills.

- GRADUATES MATCHING OUTSIDE

Our candidate's success rate in matching in the U.S. National Resident Matching Program (NRMP) is 80%. Alfaisal University College of Medicine's U.S. NRMP match rate ranks as second best in the Kingdom of Saudi Arabia and seventh across the Middle East. In addition to the international residency programs, our graduates have succeeded in obtaining residency in several well-recognized local hospitals such as King Faisal Specialist Hospital and Research Centre (KFSHRC), King Fahad Medical City, King Saud Medical City, Military Hospital, Security Forces Hospital, King Khalid University Hospital, National Guard Hospital, Specialized Medical City, Prince Mohammed bin Abdulaziz Hospital, and others.

B

RESEARCH INTERNAL & ABROAD

Alfaisal's College of Medicine has been a pioneer in medical and educational research in the Kingdom. The respective publications are covering a wide range of medical and medicine related disciplines. Collaborations with King Faisal Specialist Hospital and Research Center has an added value.

Students enjoy facilitated research opportunities with international research universities and clinics such as Cleveland Clinic, Mayo Clinic, and Harvard University, through the Summer Program for International Research and Internship Training (SPIRIT). Many students are also sent abroad for clinical electives through the ICE program.

C

STATE OF THE ART NATIONAL & INTERNATIONAL CONFERENCES HOSTED

Alfaisal University hosts several national & international conferences featuring a huge variety of elite speakers delivering high yield keynotes, several symposia, hands-on pre-conferences' workshops, alongside impressive educational exhibitions and several innovative scientific contests and competitions.

4
