# GRADUATE PROGRAM

## Master of Cardiac Nursing (MCN)

Alfaisal University in Collaboration with Prince Sultan Cardiac Centre (PSCC)

Office of Research &  
Graduate Studies

## Program Overview

---

A Master Degree in Cardiac Nursing will enable nurses to develop their professional autonomy while providing role models, educational and leadership support. This program is designed as well as to advance cardiac knowledge, and skills of registered nurses, enabling them and to meet contemporary challenges in nursing. Participation in the program will develop an understanding of the nursing and the medical care requirements for all levels of adult and pediatric patient complexity. It will assist the registered nurse to integrate theory with practice supporting both academic and clinical competence. By enhancing theoretical knowledge and practical abilities, postgraduate qualified cardiac registered nurses will be able to deliver expert and effective clinical assessments, make decisions and manage patients, while supporting evidence based practice. The development of Cardiac Nursing of at Alfaisal University will help to meet national transformational program goals in support of Vision 2030. The applied clinical components are delivered at Prince Sultan Cardiac Centre.
