

香港中文大學
The Chinese University of Hong Kong

Dean of the Faculty of Arts

Founded in 1963, The Chinese University of Hong Kong (CUHK) (<http://www.cuhk.edu.hk>) is a forward-looking and intellectually vigorous university with the mission to be a first-class comprehensive research university, regionally and internationally. CUHK upholds the aspiration “to combine tradition with modernity, to bring together China and the West”, as advocated by its founding Vice-Chancellor. It also attaches great importance to its tradition of bilingualism. With a team of over 3,000 full-time teaching and research staff, the University offers a broad spectrum of programmes up to the PhD level in various disciplines organized under eight Faculties: Arts, Business Administration, Education, Engineering, Law, Medicine, Science and Social Science. The undergraduate and postgraduate enrolments in the University’s publicly-funded programmes are currently around 17,000 and 3,600 respectively.

The Faculty of Arts (<http://www.arts.cuhk.edu.hk/>) comprises the Departments of Anthropology, Chinese Language & Literature, Cultural & Religious Studies, English, Fine Arts, History, Japanese Studies, Linguistics & Modern Languages, Music, Philosophy, and Translation, as well as the English Language Teaching Unit and the Yale-China Chinese Language Centre. The Faculty has about 450 full-time teaching and research staff, 2,200 undergraduate and 420 postgraduate research students.

The Role

The University now invites applications and nominations of qualified candidates for the Deanship of the Faculty. The Dean will be a member of the University senior management team, reporting to the University Council via the Vice-Chancellor/President or the Provost. As the academic and executive head of the Faculty, the Dean will provide academic leadership and discharge administrative responsibilities in respect to academic, staff, resources (budget and space) and student matters. He/she will also actively engage in alumni and community relations and in extending networks.

Candidates should have an excellent academic standing appropriate for appointment at the level of a full Professor in the Faculty. They should have an appreciation of the breadth of research/educational developments and the range of intellectual interests represented in the Arts Faculty, demonstrated capability in academic leadership and strategic management in higher education institutions, a long-term vision for the development of the Faculty, a successful track record of advocating for humanities as an academic and administrative leader, and excellent interpersonal and communication skills. Candidates who can communicate in Chinese and have working experience in bilingual and multicultural environments are preferred. Salary and fringe benefits for the post will be highly competitive, commensurate with qualifications and experience.

Applications and Nominations

Please send applications/nominations under confidential cover to the Search Committee for the Dean of the Faculty of Arts, c/o Richard Weir, Perrett Laver, via email: richard.weir@perrettlaver.com. Other particulars of this position may be obtainable by visiting <https://candidates.perrettlaver.com/vacancies/> and entering search reference 3004. All applications/nominations will be treated in strict confidence. The University’s Personal Information Collection Statement will be provided upon request.

Consideration of applications/nominations will continue until the post is filled. The University reserves the right to fill the post by invitation.

University Librarian

The University of Queensland, ranked consistently among the world's top universities according to several key independent rankings, has educated and worked with outstanding people for more than a century to deliver knowledge leadership for a better world.

The University Library aspires to be the pre-eminent academic library in Australia and amongst the top 50 university libraries globally.

This role represents an excellent opportunity to provide strategic and visionary leadership in a prestigious academic environment. The University Librarian leads a team of 220 staff and manages a \$46 million budget. As the Library operates in an environment characterised by rapid and disruptive change, the new University Librarian will have an opportunity to innovate in the use of technology and further progress digital transformation.

An attractive, market-based package will be negotiated with the successful candidate.

For a confidential discussion, contact Bill Kett or Brad Beumer at Heidrick & Struggles on +61 3 9012 3049. To obtain an information pack or to apply, please email uqunilibrarian@heidrick.com by Wednesday 26 September 2018.

Create change

“*Times Higher Education* has helped to foster another important dimension of diversity at Harvard: international diversity. The exposure of Harvard's faculty positions on THEunijobs, since we embarked on our subscription package in October 2015, enhances our outreach efforts to a global community and showcases our institution as a destination of choice for academics around the world. Working with the *THE* team has also been a pleasure, and has enriched the conversation around international recruitment and retention.

— Elizabeth Ancarana, assistant provost for faculty development and diversity, Harvard University”

香港大學

THE UNIVERSITY OF HONG KONG

Founded in 1911, the University of Hong Kong is committed to the highest international standards of excellence in teaching and research, and has been at the international forefront of academic scholarship for many years. The University has a comprehensive range of study programmes and research disciplines spread across 10 faculties and over 140 academic departments and institutes/centres. There are 28,000 undergraduate and postgraduate students who are recruited globally, and more than 2,000 members of academic and academic-related staff coming from multi-cultural backgrounds, many of whom are internationally renowned.

Tenure-track Associate Professor/Assistant Professor in the Faculty of Science (up to 10 posts) (Ref: 201800940)

The Faculty of Science will be 80 years old in 2019 and to celebrate this anniversary, we are recruiting a cohort of 80th Anniversary professors. This is an unprecedented expansion focused on realizing the Faculty's vision to be pre-eminent in Hong Kong, leading in Asia and highly competitive globally. We are aiming to expand by about 20% over the next year. The first round of hiring has been very successful and we are recruiting 10 more posts in this second round.

The Faculty of Science is one of the larger faculties in HKU with about 130 academic staff in five departments (Chemistry, Earth Sciences, Mathematics, Physics, and Statistics and Actuarial Science) and one school (Biological Sciences) as well as an off-site marine facility, The Swire Institute of Marine Science (SWIMS). The Faculty provides a supportive and friendly environment and is embarking on a programme of recruitment to invest in areas of acknowledged strength and to invest in areas of internationally competitive activity. Information about the Faculty can be obtained at <http://www.scifac.hku.hk/>. In addition, the Faculty is committed to gender equality and positively welcomes applications from women as well as men. The Faculty will also be happy to consider applications from individuals with their own funding who wish to explore proleptic positions.

To better support research, the Faculty has established a new research division structure and there are six new research divisions:

- Chemistry
- Earth and Planetary Science
- Ecology and Biodiversity
- Mathematical and Statistical Science
- Molecular and Cell Biology
- Physics and Astronomy

Research Division of Chemistry (3 posts)

The Research Division of Chemistry has research strengths and good infrastructure in the areas of metal chemistry and synthetic chemistry as well as strong interdisciplinary research foci in chemical biology and materials science. We are looking to build on strengths by hiring in the areas of:

- (a) synthetic chemistry (inorganic, organometallic, and/or organic)
- (b) materials science
- (c) chemical biology

Research Division of Ecology and Biodiversity (1 post)

The Research Division of Ecology and Biodiversity is uniquely located to investigate the rich biodiversity of tropical East Asia. We have research strengths in species and community responses to environmental change, and their implications for conservation and ecosystem functioning. Our work integrates the marine, freshwater and terrestrial realms, facilitated by close links with SWIMS. In this round we are looking to hire in the field of:

- (a) fish and fisheries (both theoretical and empirical approaches are of interest subject areas could include biology and ecology of marine fishes, fisheries sciences, and sustainable fisheries management)

Research Division of Mathematical and Statistical Science (up to 5 posts)

The Research Division of Mathematical and Statistical Science covers Pure and Applied Mathematics, Statistics and Actuarial Science. It has strengths in geometry, number theory, optimisation, stochastic analysis and biostatistics with key expertise in complex and algebraic geometry, Lie theory, automorphic form, combinatorial and continuous optimization, actuarial science, time series, survival analysis. We plan to recruit 3-5 new staff in the following areas:

- (a) number theory (including representation theory, arithmetic/algebraic geometry)
- (b) topological data analysis and related areas (including scientific computing)
- (c) big data in environment, society and public health (joint with the Faculty of Business and Economics, please see <http://jobs.hku.hk/jd.php?id=201800334>)*

(d) bioinformatics (joint with Li Ka Shing Faculty of Medicine, please see <http://jobs.hku.hk/jd.php?id=201800751>)*

(e) actuarial science (focusing on extreme theory, optimal insurance or applied probability)

* These posts have been advertised previously but remain open, see link for application information.

Research Division of Physics and Astronomy (1 post)

The Research Division of Physics and Astronomy has research strengths in condensed matter physics, materials science, astronomy and astrophysics. We have key expertise in quantum matter and low dimensional materials, functional materials, high energy astrophysics and stellar astrophysics. We are looking to build on existing strengths and expand our research by recruiting in the areas of:

(a) experimental condensed matter physics

(b) experimental atomic molecular and optical physics

Applications are invited for tenure-track appointments as Associate Professor/Assistant Professor (up to 10 posts) in the Faculty, to commence on or before September 30, 2019. The posts will initially be made on a three-year fixed-term basis with the possibility of renewal and with consideration for tenure before the expiry of a second three-year appointment.

Applicants should possess a Ph.D. degree in Science. They should have research interests that align with or are complementary to one of the identified areas of recruitment in one of the six Research Divisions. Appointees will have a lighter teaching load during the first contract. The teaching duties will be assigned by the Head of Department of the relevant department that an appointee will join upon appointment.

Annual salaries will be in the following ranges (subject to review from time to time at the entire discretion of the University):

Associate Professor: HK\$864,480 – 1,373,880

Assistant Professor: HK\$683,280 – 1,018,260

(approximately US\$1 = HK\$7.8)

A globally competitive remuneration package commensurate with the appointee's qualifications and experience will be offered. At current rates, salaries tax does not exceed 15% of gross income. The appointment will attract a contract-end gratuity and University contribution to a retirement benefits scheme, totaling up to 15% of basic salary, as well as leave, and medical benefits. Housing benefits will be provided as applicable.

Applicants should submit a cover letter, a completed application form, together with an up-to-date C.V., which should include hyperlinks to google scholar profiles and ORCID, a detailed publication list since 2014 with journal impact factor and citations indicated for each publication, a research proposal and a teaching statement to: <https://web.science.hku.hk/job/201800940.html>

Applicants will also be required to arrange 3 reference letters under confidential cover. It is important to note that at least one of the referees should be able to comment, amongst other things, on the applicant's research ability and his/her contribution to teaching or research in his/her department, while the remaining two should have knowledge of his/her recent academic or employment experience. Referees should submit their reference letters to https://web.science.hku.hk/job/201800940_ref.html. Application form (341/1111) can be downloaded at <http://www.hr.hku.hk/apptunit/form-ext.doc>.

Enquiries about the various posts should be sent to the relevant Heads of Departments:

Research Division of Chemistry: Head, Department of Chemistry (e-mail: chemhead@hku.hk)

Research Division of Ecology and Biodiversity: Director, School of Biological Sciences (e-mail: biosch@hku.hk)

Research Division of Mathematical and Statistical Science: Head, Department of Mathematics (e-mail: ntw@maths.hku.hk)

Head, Department of Statistics & Actuarial Science (e-mail: gyin@hku.hk)

Research Division of Physics and Astronomy: Head, Department of Physics (e-mail: physhead@hku.hk)

Further particulars can be obtained at <http://jobs.hku.hk/>. Closes November 15, 2018. Interviews for the various positions are expected to be held during the period specified below:

Research Division of Chemistry (January 21-25, 2019)

Research Division of Ecology and Biodiversity (January 28-31, 2019)

Research Division of Mathematical and Statistical Science (January 7-11, 2019)

Research Division of Physics and Astronomy (January 28-31, 2019)

The University thanks applicants for their interest, but advises that only candidates shortlisted for interviews will be notified of the application result.

The University is an equal opportunities employer and is committed to equality, ethics, inclusivity, diversity and transparency; and is committed to a Non-smoking Policy.
